Experience

SOFTWARE DEVELOPER | ACCENTURE PVT LTD

FEB 2022 - IUL 2023

- Constructed 10+ robust serverless functions via AWS Lambda that streamlined routine tasks such as report generation and data backup, leading to a 25% reduction in manual processing time.
- · Spearheaded the design and execution of backup and disaster recovery (DR) plans using Terraform and AWS services, decreasing recovery time objective (RTO) by 60 minutes.
- · Orchestrated containerized applications using AWS EKS, deployed CI/CD pipelines with Jenkins, and contributed to the DevOps toolchain, integrating Ansible for automation and managing playbooks.
- · Administered day-to-day support for AWS environments, focusing on troubleshooting, performance tuning, security management, and implementing CloudWatch monitoring and alerting solutions.
- Implemented Docker container snapshots, streamlined container management, and structured directory, ensuring smooth deployment and scalability of applications.

SOFTWARE DEVELOPER ASSOCIATE | GLOBALSTEP PVT LTD

MAR 2021 - FEB 2022

- · Built robust front-end applications using Python, TypeScript, Next.js, and React.js, focusing on enhancing user experience, code maintainability, and scalability.
- · Integrated OpenAI API for Natural Language Processing (NLP) and Machine Learning functionalities, optimizing prompt engineering for improved chatbot responses.
- · Led comprehensive testing and debugging, implementing unit, integration, and end-to-end tests to ensure seamless integration of TypeScript, Next.js, and React.js components with AI models.
- Developed a personalized video recommendation system using Large Language Models (LLM) to analyze video content and match with user queries, enhancing leadership coaching experiences.

Education

MASTER OF SCIENCE IN COMPUTER SCIENCE | UNIVERSITY OF TEXAS AT ARLINGTON BACHELOR OF ENGINEERING IN COMPUTER SCIENCE | PUNE UNIVERSITY

AUG 2023 - MAY 2025 AUG 2017 - MAY 2021

Technical Skills

- · Languages: Python, Java, C++, HTML/CSS, JavaScript, SQL
- Frameworks: Spring MVC, Spring Boot, Microservices, Spring Security
- · Web Technologies: HTML, CSS, JavaScript, Bootstrap, jQuery, JSON, XML
- Tools: Docker, Kubernetes (K8s), Terraform, Jenkins, Istio, ArgoCD, Ansible, Datadog, Git, GitHub, Jira, ServiceNow, Okta, Maven, Apache Airflow

 Cloud Platforms: Azure, GCP, AWS (EKS, ECS, ELB, ECR, S3, EC2, CloudFront, API Gateway, RDS, Lambda, Route53, VPC, CloudWatch, SNS, SQS, IAM)

Projects

WEBCHATGPT - AI-POWERED CHATBOT

- · Architected AI chatbot application using React.js, Node.js, and Express.js, linking OpenAI's API for immediate assistance, earning recognition as the most innovative project by team leadership.
- Bolstered data protection measures by utilizing JWT-based authentication, adhering to OWASP security best practices and achieving compliance with industry standards within the first quarter of implementation.
- · Optimized API request handling with caching and rate limiting, improving performance and minimizing OpenAI API costs.
- · Automated the deployment process to both AWS and Heroku using Docker, improving application scalability and guaranteeing consistent performance under varying load conditions.

CHEF-MATE: ANDROID APPLICATION - KOTLIN

- · Led the development of Chef-Mate, an Android app that connects users with personal chefs for customized culinary experiences, achieving a 95% user satisfaction rate.
- · Integrated advanced features like real-time order management and chef discovery, increasing user engagement by 30%.
